

Information sheet regarding FIFA '26 and the City of Toronto

The city will be looking for a variety of suppliers to support the successful hosting of this historic event in our city. The City's method for contacting interested suppliers is to post purchasing opportunities electronically, to be viewed by the public. This ensures that all business opportunities are conducted in an open, fair, and transparent manner.

For future business opportunities, you should periodically review our opportunities website: <https://www.toronto.ca/business-economy/doing-business-with-the-city/>. The City encourages you to regularly monitor this site for requirements your company might be interested in bidding on.

For an overview of procurement at the City of Toronto, the Purchasing & Materials Management Division (PMMD) hosts monthly Supplier Information Sessions, which provide information on how to do business with the City. Instructions on how to register for Supplier Information Sessions and a full list of dates can be found on the City's [Understanding the Procurement Process webpage](#), under the Supplier Information Sessions dropdown.

In addition, Economic Development and Culture hosts an extensive series of learning sessions for small businesses and start-ups. PMMD presents on doing business with the City quarterly. Registration will be available when those dates are confirmed on the [Business Webinars & Training webpage](#), under the Government Programs & Services dropdown. There are many additional resources on this page.

For procurement opportunities over \$100,000, we work in the SAP Ariba platform - the City's electronic bidding system. Suppliers can set up auto-notifications in their profile to receive notice of procurement opportunities, based on the categories of goods and services they provide. Further information on SAP Ariba, as well as viewing and bidding on City opportunities, can be found on the [Doing Business with the City webpage](#).

Information sessions are available to understand how to do business with the City of Toronto, covering:

- City of Toronto purchasing activity
- Role of Purchasing & Materials Management Division
- The bid process
- Purchase orders or contracts
- Approvals to award contracts
- Invoicing

NCCCC
Netherlands-Canada
Chamber of Commerce

Supplier information sessions are available every month in 2025: August 12, September 9, October 7, November 4 and December 9

Please register for an information session by contacting supplychain@toronto.ca or call 416-397-4141 and signing up for an available date.
